Sayan Datta

Full Stack Web Developer

Backend-focused developer skilled in Java and Spring Boot, with hands-on experience building REST APIs and React-based frontend applications.

+918016361800 | sayandatta9876@gmail.com | Portfolio | GitHub | LinkedIn | Kolkata, India

EXPERIENCE

CMS IT Services Pvt. Ltd. June 2026 – Present
Full-time Executive Engineer Kolkata, India

- Work with Java and Spring Boot-based enterprise applications to analyze application behavior, investigate defects, and identify root causes of software issues.
- Analyze REST APIs, application logs, and SQL queries to debug backend issues and identify failures across application and database components.

CMS IT Services Pvt. Ltd. April 2025 – June 2026
Associate Engineer Kolkata, India

- Worked with Java and Spring Boot-based enterprise applications to analyze application behavior, investigate defects, and identify root causes of software issues.
- Analyzed REST APIs, application logs, and SQL queries to debug application issues and identify failures across backend and database components.

Freelance Software Developer Dec. 2023 – Feb. 2025
Upwork | Fiverr Remote

- Built full-stack applications using Java, Spring Boot, React, and MySQL, developing REST APIs and responsive interfaces.
- Implemented secure authentication and authorization using Spring Security, JWT, BCrypt, and role-based access control.
- Developed database-backed features using JPA/Hibernate and integrated Cloudinary for media storage.

PROJECTS

Synapse - AI-Powered Document Assistant [Live Demo] [Frontend] [Backend]

- *Technologies: Java, Spring Boot, Spring AI, React, TypeScript, PostgreSQL, pgvector, Gemini API*
- Built a full-stack RAG application that enables users to interact with their documents through AI-powered conversational question answering.
- Developed REST APIs with Spring Boot and integrated Google's Gemini API for AI-generated answers and streaming chat responses.

Video Streaming Platform [Live Demo]

- *Technologies: Java, Spring Boot, Spring Security, React, MySQL, Cloudinary*
- Built a full-stack video platform with authentication, uploads, streaming, search, profiles, and account verification.
- Developed REST APIs with JWT authentication, BCrypt hashing, OTP verification, password reset, and role-based access control.
- Integrated Cloudinary with MySQL and JPA/Hibernate for media storage and persistent data management.

EDUCATION

Bengal College of Engineering and Technology Aug. 2018 – June 2022
B.Tech in Computer Science and Engineering | CGPA: 8.24 Durgapur, West Bengal, India

SKILLS

Programming: Core Java, JavaScript, TypeScript, SQL
Backend: Spring Boot, Spring Security, Spring AI, REST APIs, JPA, Hibernate, JDBC, JWT, OAuth2
Frontend: React.js, Vite, HTML5, CSS, Tailwind CSS
Database & AI: MySQL, PostgreSQL, pgvector, RAG, Embeddings, Vector Search, Gemini API
DevOps & Tools: Docker, CI/CD, Git, GitHub, Maven, Swagger / OpenAPI, Postman, Axios, Zustand, Cloudinary

LANGUAGES

Languages: English, Hindi, Bengali
